WORK EXPERIENCE

University of Saint Louis, Tuguegarao City, Cagayan

Frontend Developer Intern

February – May 2026

- Built a web-based exam scheduling system replacing manual Excel workflows, reducing scheduling time from weeks to hours
- Automated conflict detection and centralized scheduling data, improving accuracy and minimizing manual errors
- Developed a secure voting system with user authentication, ensuring only enrolled students could vote
- Delivered real-time, tamper-resistant election results, improving transparency and reliability of student elections

PROJECTS

Exam Scheduling System

- Designed and developed an automated scheduling platform to streamline exam planning
- Implemented logic to detect scheduling conflicts and optimize time allocation
- Centralized data management for improved accessibility and reporting

Online Voting System

- Built a secure voting platform with authentication and validation features
- Ensured data integrity and accurate real-time vote counting
- Replaced manual Google Forms process with a more secure and scalable solution

EDUCATION

University of Saint Louis Tuguegarao

BS Information Technology

Tuguegarao City

2026

Additional
